

## **Working at Heights - Safe Working at Heights Course**

Falls from heights are a significant problem in the plumbing industry resulting in workplace fatalities and many serious injuries. Plumbing Contractors are required to ensure that appropriate measures and systems of work are implemented to ensure the safety of all workers.

This course has been developed to suite both the worker and the Plumbing Contractor and offers participants' broad based awareness of:

- 1 Safe systems of work when working at heights
- 2 NSW legislative & regulatory requirements
- 3 Fall prevention techniques and the consequences
- 4 Personal safety & personal protective equipment.

Continuing Professional Points (CPD) - Note this course earns CPD points towards the points required for the renewal of your Contractors Licence over a 3 year period (CPD points required for Builders & Pool Builders only at this point).

**For Further Information and Bookings please ring Nada Daou on (02) 8789 7000**

Bookings must be received at least 5 Days prior to the course date.
